Mr. Bush should drop politics
for a week and closet himself with
a spelling book.

Mr. C. J. Lyons, who has made
an exhaustive study of past weather
records, reports that he inclines
to the belief the present will be a
wet winter.

It should be noticed in figuring
the returns that a majority of the
509 registered under Hawaii nei
represent Americans and their
descendants in Hawaii. The fact
is, the total of 975 registered under
Hawaii nei really represents, by
majority, the Americans of Oahu.

AFTER ridiculing American de-
plomacy for the past two years
Royalist editors are now alleging
the late monarchy was overthrown
by the deep diplomacy of Hon.
John L. Stevens. Well, the royal-
ists can depend on the Americans
never telling just how it was over-
thrown.

It is unfortunate the *Advertiser*
should have made the illtimed
attack on the Central Union
church, or Rev. Mr. Penrose,
whichever was intended, that it has.
The attack is wholly without
the foundation of fact and
while it may tickle a few of the
well known anti-missionary, anti-
Republican class, will win the
morning journal, under its new
management, few friends. The
fact that the *Advertiser*
has been on the downward
journalistic grade since the
departure of Mr. Castle, its former
able editor, is a source of regret to
every annexationist and whole-
hearted supporter of the Republic.

THE ASSOCIATED PRESS.

The Associated Press has lately
added new agencies and facilities to
its already widespread combination
for furnishing the news of the
world to its patrons. Its claim,
however, that in foreign news it
stands far ahead of its previous
record certainly does not apply to
its Hawaiian reports of the last
several months.

An instance of this was seen
lately when several of the leading
papers of the Pacific coast and the
East published full accounts of
Minister Thurston's labor mission
on behalf of Hawaii, about which
the Associated Press did not send
a hint over the wires. The recent
location of the dry docks at Pearl
Harbor by Admiral Irwin was an-
other instance where the Associ-
ated Press not only did not get the
news, but afterward sent dispatches
broadcast denying the accuracy of
the statement, which, however,
was subsequently established by
the admission of the Secretary of the
Navy, as quoted in a speech in the

United States Senate by Mr. Mor-
gan. The Associated Press may
be enterprising enough in the
United States but it certainly is
not up to the news mark in Ha-
waii.

THE CABLE PROJECT.

For years the dream of Hawaii
has been to secure cable communi-
cation with the outside world and
there have been both home and
foreign companies organized to
form the desired connection.
Much has been written, more has
been said and perhaps there has
been somewhat of diplomatic
movement in this direction; but up
to the present no definite move-
ment for the laying of a cable has
been begun.

Mr. W. H. Mercer is now
here and has entered into corre-
spondence with the Government to
further the ends of the cable cor-
poration he represents. At the
present stage of negotiations little
can be said because little has been
done.

While it is the duty of the Gov-
ernment to forward by all prudent
and desirable means, the construc-
tion of an ocean cable touching at
Hawaii, it is not necessary at this
stage to be in a hurry in closing
negotiations with the first or any
applicant until the question has
been thoroughly gone over and the
pros and cons canvassed in detail.

It is not understood the present
offer asks an exclusive franchise,
but the point should be insisted
upon by the Hawaiian Government
that under present circumstances
the interests of the Islands
demand that no right should be
granted any foreign cable com-
pany which would shut out competi-
tion. The history and lesson of
cable laying in the Atlantic Ocean
is sufficient ground for such a pol-
icy. The fact that Hawaii is the
only available landing place for
submarine cables in the Pacific,
upon the shortest cable route,
should warn the Government
to be exceedingly careful in granting
foreign cable privileges which
might hereafter be made a basis for
international claims or contentions.

The policy of Annexation, which
is being pursued by Hawaii, will
doubtless cut more or less of a
figure in the granting or with-
holding of cable concessions;
and the Government can hardly
go amiss by retaining
all vested rights or interests in the
hands of the Republic. This will
not interfere with granting, if
found expedient, such limited
franchises only as will be certain
not to conflict with the commercial
and political interests of the im-
mediate future. In other words an
annexation should be made the key-
note of our foreign as well as in-
ternal policy and every proposition
from the outside which may have
a bearing hereafter on local or in-
ternational politics should be care-
fully scrutinized before any favors
are granted. Hawaii is at present
in a position to ask concessions
rather than to grant them, and in
following out the suggestions of
her geographical and strategic situ-
ation the claims of republicanism
and annexation should be consid-
ered first and last.

Valuable Information to Housekeepers

The reputation as a good housekeeper
depends often on serving a cup of fine
coffee. Now do not fail to use with pure
ground coffee a little of Engelbrecht's
VIENNA COFFEE FLAVOR,
patented January 24th, 1882.
Anyhow try it once, and you are sure
to get a cup of delicious coffee, which
even the most fastidious will enjoy.
Some believe that pure coffee alone will
have the desired result, but this flavor
is to coffee what seasoning is to meat;
it imparts richness, improves the taste,
makes it nourishing and wholesome,
helps digestion, and gives it a splendid
color, and what is not to be disregarded,
saves one-third coffee.

This unsurpassed flavor is made from
best California Figs, it has nothing in
common with chicory or any artificial
coffee substitute.

**Hood's Saved

Poisoned by Impure Water
Now in Good Health, Lively, Happy

Eva, Carroll and Lily Brown
Stowe, Vermont.

"C. I. Hood & Co., Lowell, Mass.:
"Gentlemen:—Last winter, my two girls, boy
and wife were taken ill. The doctors said they
were poisoned by drinking water from an old
well. The two girls failed to rally under the
doctor's treatment. Eva, aged four years, fell
away so she only weighed 120 lbs., coughed
all the time and was helpless. Physicians said
she had Consumption.

Lily, aged eight years, was nearly as bad as
Eva but being older and stronger, held up a lit-
tle better. We gave them both Hood's Sarsa-
parilla, which built up their strength and health
thru to that they became fat and plump, lively
and happy. My son Carroll was in a bad con-
dition, having a bad cough and very weak. He
was obliged to lie down most of the time. One
bottle of Hood's Sarsaparilla put him on his
feet and restored perfect health. I believe
Hood's Sarsaparilla saved my children's lives."
